Modern Doula Education's Postpartum Doula Certification

Welcome Baby Care has been providing high quality in-home postpartum doula care since 2010. After thousands of hours working in homes of new parents and babies, we decided to gather the training used in leading certifying agencies and enhance it with a more comprehensive and hands-on version, creating Modern Doula Education (MDE). Unlike other programs, MDE provides everything you need to complete the certification in as little as four weeks. We do the leg-work so you don't have to. You have full access to trainers who guide you through the process and answer any questions you have along the way.

Postpartum Doula Certification Overview

Our up-front, no hidden expense cost: \$499
